

2024 GLASSWARE HORECA COLLECTION

ARDAÇAM[®]
GLASSWARE DESIGN & PRODUCTION

Made in Türkiye

ArdaCam is one of the major spinning handmade glass manufacturer and decorator in Europe.

ArdaCam Glassware collaborates with the majority of the leading retail brands in 110 countries.

With our own HoReCa brand, we wish to create designs that support the pieces of art that chefs and the chefs at heart around the world create.

We want to develop ourselves and our product line in accordance with the principles of sustainability and focused on having a sensitive approach to making an environmentally friendly production. We always believe in our innovative and creative sides in design.

We started to provide services in Horeca Sector with our brand in 30 countries with our business partners.

We thank you for your interest in our new product lines and aim to grow with you.

Leading Manufacturer in the Glass Sector.

Our production facility, located in Istanbul, is built on an area of 20,000 m². It provides employment for 450 people by closely following innovative technology with its investments.

We look forward to meeting you with our 34 years of experience.

WHY ALABASTER?

- Alabaster comes from a soft and translucent stone that is often used for carving. It has always been used for decorative artifacts.
- Alabaster colors are special when applied while fusing glass.
- The colors are protected by a layer of glass. There is no contact between the alabaster color and food or drink.
- Alabaster decorating allows for giving color to the glass without losing its transparency.
- Colors can be mixed together to create unique results.
- It is a natural stone, which increases the durability of the product.
- Long-lasting and scratch-proof decoration.
- Suitable for tableware items.
- Lifetime dishwasher-safe guarantee.
- Possible combination with other materials.

THE SPINNING METHOD

The spinning method is applied as the molten glass is taken into a mold and rotated around the axis of the mold, and the glass takes shape in the mold. The spinning method has been widely used in every period from the past to the present.

Art From The Nature.

We are inspired by the smoke of the dishes cooked with passion!

We want to develop ourselves and our product line in accordance with the principles of sustainability. We are focused on having a sensitive approach to making an environmentally friendly production.

For the *Chefs*
Our 100% handmade product collections will complement your dishes.

For the *Chefs at Heart*
To make your table presentations remarkable.

For the *Presentations*
The smell of smoke and the passion for cooking in a kitchen inspire us.

For the *Tables*
Include our stylish and timeless designs on your tables.

- Glass material is safe to use in food storage and for both hot and cold food. Food can be directly stored or served with glass products.
- Glass is a recyclable material and safe for human health.
- All glass products are dishwasher-safe, including industrial dishwashers. It is advised to avoid harsh chemicals when cleaning glass products. Harsh chemicals might corrode the surface of the products.
- Do not scrape the food leftovers with a metal utensil to avoid any damage to the product.
- Over stacking is not recommended as glass is a fragile material.
- It is not safe to use glass products in the oven. Additionally, direct flame, excessive heat, or sudden temperature changes should be avoided for product safety.
- Always wash all glass products before using them for the first time.
